COLOURSCAPES

The fascinating world of hues

COLOURS YOU CAN FALL BACK ON

Step into a world of vibrant hues and dazzling shades, where breathtaking colours are always within reach. Our unmatched collection offers the widest range available to architects and designers, inspiring creativity and transforming any project into an architectural masterpiece.

From subtle to bold, our curated shades create mesmerizing effects that stand the test of time. Explore our palette, unleash your imagination and bring your vision to life with colours that know no bounds.

CREATE YOUR VIVACIOUS WORLD

Our Vibrant, Solid, Metallic and Sparkling Colours are carefully selected to add both impact and a sense of modernity to any design. Use them as highlighters to enhance patterns, draw attention to key design elements and make your projects stand out.

If none of our colours perfectly match your vision, let us know, we'll ensure you get exactly what you need. With our colour customisation service, we can help bring your dream project to life, no matter how unique your requirements may be.

Go beyond the ordinary and explore our wide-ranging collection and discover the power of these vibrant shades to elevate your designs to new heights.

GENERAL INFORMATION

The fluorocarbon based (PVDF/FEVE) coating is applied to the aluminium coil prior to lamination onto ALUCOBOND®'s top surface using a continuous coil coating process. The quality of the coating is tested according to standards established by AAMA (American Architectural Manufacturer's Association) 2605 superior performance specification/E.C.C.A. (European Coil Coating Association) of which 3A Composites is a member.

Fluorocarbon coating systems combine good formability and excellent surface durability. They are extremely resistant against weathering, UV radiations and pollution.

Minimum order quantities apply. For more information and product specification please refer to your nearest representative.
